LIGCHINE SPIDER SCREED

SIGNIFICANT LABOR SAVINGS

Ligchine screeds dramatically reduce dependence on labour, which is often in short supply. A laser-guided concrete screed will help contractors perform more efficiently and profitably by being able to produce and deliver a flatter, level floor. Because of how fast these machines can get the job done, contractors will save money by using a smaller crew.

LIGCHINE SCREEDSAVER II

SUPERIOR LEVEL PERFORMANCE

Ligchine screeds deliver industry leading Floor Flatness (FF) and Floor Levelness (FL) results..

LIGCHINE SCREEDSAVER MAX

EFFICIENT OPERATION

Ligchine screeds meet the productivity demands of commercial operations. With maximum coverage per pass and simple, quick movement to the next pass we deliver high screed rates per hour – so you can get the job done and move on to the next one.
